MEMORANDUM FOR: Assistant for Technical Development, NPIC

ATTENTION [REDACTED]

SUBJECT : Modification of [REDACTED] Light Tables by [REDACTED]

1. The proposal for modifying [REDACTED] Light Tables forwarded to the Photographic Analysis Group has been reviewed and is of no interest to us. The light tables that are presently on hand are to be replaced by the split format light table for the most part. The tables to be retained are equipped with a high intensity light source which, according to [REDACTED] and some tests made in-house, have a foot-lambert value of 2100. This figure as you will note is approximately the same as proposed by [REDACTED]

2. We wish to thank you for forwarding the proposal to us, however, we have no requirement for this modification.

[REDACTED]
Assistant for Photographic Analysis, NPIC
